Ambrose Blay

SWE Intern @ Meta | CS @ Cornell University
Ithaca, New York, United States

Summary

Personal Mission Statement:

As a software engineer, I am committed to creating precise, efficient solutions that enhance my customers' lives through automation and innovation. I prioritize continuous learning, personal growth, and the well-being of my body and mind. Above all, I value meaningful relationships, supporting my friends and fostering connections with integrity and care.

Experience

Amazon Web Services (AWS)

Software Development Engineer

August 2026 - Present (1 month)

Seattle, WA

DocumentDB

Meta

Software Engineer

May 2026 - August 2026 (4 months)

Seattle, WA

Youth Safety

Bovi-Analytics

Undergraduate Research Assistant

February 2026 - May 2026 (4 months)

Ithaca, New York, United States

Work on distributed AI model training & data storage for dairy farms.

Cornell Ann S. Bowers College of Computing and Information Science

Course Assistant for CS1110 - Intro to Programming (Python)

January 2026 - May 2026 (5 months)

Ithaca, New York, United States

Hold consulting hours, lead lab sections, and grade assignments with feedback to support student learning and reinforce course concepts.

Amazon Web Services (AWS)

Software Development Engineer

May 2025 - August 2025 (4 months)

Seattle, Washington, United States

NeptuneDB (Query Team): Worked on query optimization and Worst Case Optimal Joins

Cornell Ann S. Bowers College of Computing and Information Science

Course Assistant for CS1110 - Intro to Programming (Python)

August 2024 - May 2025 (10 months)

Ithaca, New York, United States

Held consulting hours, led lab sections, and graded assignments with feedback to support student learning and reinforce course concepts.

Cornell University

1 year 8 months

Course Assistant for Math1110 - Calculus I

August 2024 - May 2025 (10 months)

Ithaca, New York, United States

Graded assignments with constructive feedback and held consulting hours to support student learning and clarify course material.

Dining Associate, Bear Necessities

October 2023 - August 2024 (11 months)

Ithaca, New York, United States

Worked as a Cashier

Backend Developer, Cornell Appdev Hackathon

November 2023 - December 2023 (2 months)

Ithaca, New York, United States

Collaborated with designers and developers to build an iOS study-session app, developing a SQLAlchemy backend with Flask APIs for authentication and session management.

Cornell University College of Agriculture and Life Sciences

Student Lab Assistant

April 2024 - March 2025 (1 year)

Ithaca, New York, United States

- CUIC Ant databasing

Cornell Lab of Ornithology

Research Intern

June 2024 - August 2024 (3 months)

Ithaca, New York, United States

Built source separation algorithms to enhance BirdNET species identification, automated analysis workflows in Jupyter, and applied Gaussian Mixture Models and arctangent fitting for sound source localization.

Culture Care

Software Engineer

December 2023 - August 2024 (9 months)

Ithaca, New York, United States

Developed and integrated a React-Flask/SQLAlchemy onboarding platform that reduced latency by 40%, matched 30+ patients with BIPOC therapists, and ensured product quality through client-aligned testing.

Association of Computer Science Undergraduates

Web Developer

February 2024 - May 2024 (4 months)

Ithaca, New York, United States

Developed and maintained ACSU's web infrastructure

Education

Cornell University

Bachelor of Arts - BA, Computer Science · (August 2023)

CodePath

Technical Interview Prep, Computer Science · (June 2023 - August 2023)
